# About Us

Our Mission and Our Values

# Our Mission

Aliante Animal Hospital is a full-service veterinary medical practice located in North Las Vegas, Nevada. The hospital opened in 2014 and serves the greater Las Vegas Valley, not just North Las Vegas.

The hospital is equipped with digital radiology, digital dental radiology, ultrasound, laser therapy, an in-house laboratory, a surgical suite, special boarding tiers for patients, and a paperless medical records computer system.

Our emphasis when it comes to patients is overall pet wellness. The veterinary staff at Aliante Animal Hospital are well-trained in the necessary medical and surgical care that is needed for small animals.

# Our Values

The staff at Aliante Animal Hospital value high-quality wellness care with a focus on customer service. Consistent visits to the veterinarian helps our staff stay on top of your pet's health, making sure they live a long and happy life with you and your family.

Fostering close relationships with our patients and clients is something we highly value at Aliante Animal Hospital. Building and maintaining these relationships helps our staff provide the best care possible for pets.

Treating each client with respect and understanding is what keeps them coming back to Aliante.

Style, Rules, and Regulations

# Branding Reminders

- Incorporate the trademark symbol next to the Aliante Animal Hospital logo.
- When creating literature for the animal hospital, keep to main colors in the logo.
- Serif fonts should be used as headers, but exceptions can be made for creative graphics and videos.
- Avoid rotating, stretching, or using the Aliante logo in a sentence.
- Using the logo on a busy background image should be also avoided.
- Adding shadows, gradients, or other stylized effects on the logo are ill-advised.

A new doctor has joined the team at Aliante Animal Hospital! Please welcome Dr. Carlos B. Dr. Baez is a graduate of Ross University and is from Caguas, Puerto Rico. Dr. Baez grew up in Puerto Rico and slowly realized he wanted to work in veterinary medicine. He said that taking family's dogs to a local vet office was what first interested him in animal medicine. "I began shadowing at that same clinic and I was there for a good three to four years before applying to v... See More

# Our Brand in Video

Aliante Animal Hospital has a specific style when it comes to online videos. Generally speaking, talking head shots with the staff should follow the Rule of Thirds placements, and footage of the hospital should consist of close-ups of the patients, collaborative efforts of the team, and overall veterinary care (surgery, exams, dental cleanings, etc). Be sure to avoid using any footage that could be deemed too graphic for our audience. Be aware of what's going on in the background while filming, and end every video with a white title card that includes the Aliante logo, and any credits to additional images, sounds, or videos that were used. Focus on keeping the footage used of Aliante light and professional.

## Logo Colors:

<b>HEX CODE:</b>	<b>RGB:</b>	<b>HEX CODE:</b>	<b>RGB:</b>
<b>#611012</b>	<b>97 91 18</b>	<b>#A69683</b>	<b>166 150 131</b>
<b>CMYK:</b>		<b>CMYK:</b>	
<b>35 96 91 54</b>		<b>36 37 48 2</b>	

The primary colors used by Aliante are most often utilized in printed media and other materials that are used to promote the brand of the hospital. The primary colors are the scrub colors of Aliante's staff, so it's good to use them whenever possible for creative projects or promotional materials for the hospital.

Aliante's logo colors, specifically red, can be utilized in creative projects, such as name cards for videos or headers in any graphic design work related to the hospital.

# Logo Evolution

Aliante Animal Hospital utilizes two logos: one for media and branding purposes, and the other for more formal purposes. The logo used for any media created by Aliante Animal Hospital has undergone a few changes since its inception, but the overall aesthetic has stayed the same.

Older projects and business cards have used the old version of the Aliante logo, but all future projects, print outs, and anything else related to the hospital should use the newer version of the Aliante logo to stay consistent for branding purposes.

The more formal logo utilized by Aliante is used for the building, road signs, and professional print ads.

# Logo Orientation

The logo for Aliante Animal Hospital should be placed in the top or bottom corners in any print or digital media. For outdoor signs or other creative projects, such as buttons or jackets, the logo placement may change if necessary (see previous print and other visual examples). The font color of the logo may change as well, depending on the background.

# Font Guidelines

<p>Bitter is the main font of the Aliante Animal Hospital logo. Ideally, this font should be used just for the logo, but can act as a second font choice for headers and titles for creative projects.</p>	<p>Microsoft Himalaya is the second font used in Aliante’s logo. This font should be used just for the subheader in the Aliante logo. In certain cases, when deemed appropriate, this font may be used for any media related to the hospital.</p>	<p><i>New Century Schoolbook is part of the logo font on the hospital building. This font specifically should always be bolded and italicized, and “aliante” is always in lowercase.</i></p>
<p>Arial Narrow is the second font used for the hospital building logo, and other formal occasions. This font should always be bolded, and “ANIMAL HOSPITAL” should always be capitalized if used.</p>	<p>Zilla Slab is a font that is used for headers and titles. This font can also be used for signage, door decals, and other creative outlets for Aliante Animal Hospital.</p>	<p>Roboto Condensed is the font mainly used for printed information regarding small animal care. It can also used for any in-house printing, such as booklets, folders, letters, and/or promotional materials.</p>

## Other Typefaces

For internal documents, Arial should be used at all times.

For online or creative project purposes, additional sans serif fonts are acceptable, including:

Source Sans Variable   Open Sans   Raleway   Helvetica   Lato

# Text & Fonts

# Final Reminders

- Fostering the human-animal relationship is one of the many cornerstones of our business, and should be respected as a central part of the business model.
- Clients, patients, and staff are to be respected and treated fairly at all times.
- Keep to the logo colors for any branding or promotion directly related to Aliante Animal Hospital.
- Sans serif fonts are best used for body/paragraph text. Creative projects allow for more leeway on which sans serif fonts can be used and in what capacity, i.e., titles, text, etc.
- Orientate the Aliante logo in the corners for any branding or creative project as often as possible, regardless if the medium is print, video, or graphics.
- Logo orientation may vary for outdoor signage or any in-house apparel, i.e. jackets.
